About ACIIA - IIA India International Summit

The ACIIA - IIA India International Summit is one the biggest event across Asia Pacific happening in India wherein the objective is to deliberate the concept of Internal Auditors/Risk Management professionals with eminent personalities of the industry.

Last such International Event was hosted by India in 2017.

Approximately 1000+ delegates (physical + virtual).

Galaxy of National and International Speakers

Expected delegates from multiple APAC countries

Most of the attendees would be Internal Audit/Risk Management/Finance Professionals.

Agenda : ACIIA - IIA India International Summit

The Institute of Internal Auditors, India (IIA India), in association with The Asian Confederation of The Institutes of Internal Auditors (ACIIA), is bringing to New Delhi the ACIIA - IIA India International Summit, on the 17th and 18th of March 2023. This prestigious programme will be held at The Grand, Vasant Kunj, New Delhi, with a focus on 'Internal Audit 2025: Trends & Innovation'.

This highly acclaimed 2-day hybrid event will see experts discussing the changing role of internal auditors/risk management professionals in these rapidly evolving times. They will share varied perspectives around the changing role of internal auditors to exceed stakeholder expectations in times when digitalization, ESG, disrupted business and revenue models are influencing the business dynamics.

This is a brilliant platform for Internal Audit/Risk Management/Finance professionals to connect, learn, innovate, and collaborate with like-minded colleagues coming together from within India and from different Asia-Pacific countries.

This hybrid event is expected to bring together approximately 1000 (physical and virtual) audit committee members, independent directors, CFOs, CROs, CAEs, CISOs, Internal auditors/Risk professionals, from multiple countries. This power-packed summit is jointly organised by ACIIA and IIA India - Delhi Branch and is hosted by the dynamic IIA India - Women's Forum.

Why This Agenda

- India is the fastest growing major economy in the world, currently the world's fifth largest economy, with a gross domestic product (GDP) of USD 3.5 trillion. It is poised to achieve \$5 trillion GDP by 2025.
- Digital applications could proliferate across most sectors of India's economy. By 2025, core digital sectors such as IT and business process management, digital communication services, and electronics manufacturing could double their GDP levels. Concepts such as big data, machine learning, artificial intelligence and data science are increasingly at the centre of the debate about digital revolution.
- India aims to reach net zero by 2070 and has started focussing on improving energy efficiency by the Perform, Achieve and Trade (PAT) scheme, the National Hydrogen Mission, increasing electrification, enhancing material efficiency, and recycling and ways to reduce emissions.
- The Ministry of Corporate Affairs has issued voluntary guidelines for Environmental, Social & Governance (ESG) compliance while the Securities and Exchange Board of India (SEBI) has mandated ESG-related disclosure for the top 1,000 listed companies as per market capitalization.
- With this background, it is pertinent that all in the IA fraternity keep abreast of the latest trends and innovations to fulfil their professional responsibilities of protecting and empowering their stakeholders!
- It's the time for action!

Key Sessions (may undergo change)

- **Session I - Digital Governance in Companies**
